

**VOICE V93000 and T2000
Users and Partners Conference
Tuesday & Wednesday, April 24-25, 2012
DoubleTree Hotel, San Jose, California**

Extended Workshops, Thursday, April 26 (venue TBA)

Expect something exciting at VOICE!

In 2012, VOICE promises to be bigger, better, and more innovative than ever. For the first time, Advantest will join VOICE, opening the door to more learning and networking opportunities. For three days in April, totally immerse yourself in every facet of using Verigy's V93000 and Advantest's T2000 SOC technologies.

VOICE 2012 track list

- High-speed Digital Test
- Production Test
- Rapid Development Solutions
- RF & Mixed Signal Test
- SmarTest and TSS Programming
- Test Engineering Tutorials
- Throughput Enhancement

Kiosks and workshops to fine tune your expertise

- Multiple workshops covering advanced V93000 and T2000 features
- V93000 Smart Scale Mixed Signal and RF Implementation
- T2000 Functional Test Abstraction
- V93000 Smart Scale Digital Implementation
- T2000 Enhanced Performance Package (EPP) Advanced Capabilities
- Multiple kiosks hosted by Verigy and Advantest R&D and industry experts
- ...and more

Count on VOICE to provide you with a host of tools for both platforms and the imagination and inspiration you need to meet the demands of the test industry.

And enjoy some fun in San Jose! In the heart of the innovative Silicon Valley, the San Jose area offers activities for the whole family.
