

Verigy Product Safety and Regulations Policy

“Verigy’s Product Safety and Regulations Policy is to provide products and services that meet legal requirements and are safe for their intended markets and applications.”

Verigy’s managers and employees are expected to support implementation of this policy in accordance with their roles and responsibilities in the organization.

The following courses of action facilitate our conformance with this policy:

- Determine safety, regulatory and related customer requirements applicable to our products in their intended markets.
- Define appropriate product safety and regulatory requirements for our suppliers, and ensure they comply with them.
- Integrate product safety and regulatory compliance principles and methodologies into our business and decision making practices.
- Design and verify product compliance with all applicable safety and regulatory requirements and maintain compliance through each product’s lifetime.
- Provide clear, accurate and timely conformity information to customers, shareholders, employees, the public and government agencies.
- Undertake appropriate and timely investigations and corrective actions in response to any product safety incident.
- Contribute balanced and technically viable requirements into product legislation and strategically important international technical standards.
- Continually improve the effectiveness of our product safety and regulatory compliance processes, practices

Update May 2006

This policy is approved by Verigy's executive management and applies to Verigy operations worldwide. Printed copies of this document are uncontrolled.
